To whom it may concern

Dear Sir or Madam,

Re: NEW LITTLE MILL PROJECT

Eric Wright Construction is the Main Contractor of the New Little Mill project, the conversion and extension of an existing mill with a grade II listed façade into 68 apartments and associated landlord areas.

Northbank Demolition were our subcontractor undertaking the demolition works requiring removal of the existing roof, upper floors, steel frame, internal walls, fittings and the like, whilst working closely with our façade retention subcontractor.

Northbank Demolition have performed exceptionally well on the project, providing a pro-active approach to the project's needs. They have provided a professional, open, non-adversarial approach to a number of challenges that a project of this type encounters, whilst adhering to the programme requirements. Their collaborative approach with Eric Wright Construction and other subcontractors, from Senior Management to operational staff has provided the project with an excellent start.

We have enjoyed a great working relationship with Northbank and look forward to working with them on future projects.

Yours faithfully,

A handwritten signature in black ink, appearing to read "Adam Pickford", written over a large, light-colored scribble.
